GOVERNOR IRRLAND believes in home rule, and he wants the Mexicans to do their ruling at home.

As THE Chicago Anarchists approach the scallold it is sad to say that our distinguished visitor Johann Most is not in the mourning train.

THE railroad war, like the poor, tween the Baltimore & Ohio and the Pennsylvania is a pretty fight as it stands.

What do we hear! Governor Ireland, of Texas, a West Virginian and a Tyler county man at that! The Greasers don't know the kind of stock they are monkey-

licans of the First Congressional District will meet in convention to nominate the next Congressman from this district, Will some Democratic brother kindly make a few feeble remarks about convenient proximity to the Insane Asylum?

Ma. KEIPER admits his defeat in the Springfield, Ohio, district, and plucky Bob Kennedy is moving on. Keifer's facility for getting into trouble made him a hinderance to his party in the House. With his real ability he might have been a great help. Some men are built this way.

The plot thickens. Now we have the Tyler Democrat booming Col. Dan Johnson for Congress. The Colonel deserves well of his party, but there seems to be a concerted movement of long standing to leave the Reciuse of Long Reach in his retirement. When the Democrat reminds its party that "the experience of the last election adminishes us that a nomination is not equivalent to an election," we feel forced to admit that somebody has been looking over the returns and is impressed by the logic of events.

Whatever is to be done in this matter in behalf of Wheeling must be done at once. The certain advantage to the city is inestimably beyond the utmost limit of the cost. Thirty thousand vailors for three or four days will bringahandsomesum of money—probably a quarter of a million of dollars—and the whole community will profit it. Such a prespect ought to induce a large attendance at to-night's meeting, and we have no doubt that the Chamber will welcome citizens generally who may feel enough interested to be present. Boom the old town!

WASHINGTON, D. C., August 11 .- Acting Secretary Fairchild has received a report from Special Agent Jerome, at Tucson, Arizona, to the effect that a large number Of Chinamen are continually entering the United States over the Mexican Border in violation of the law. Customs inspectors turn them back and do all they can to enforce the law, but, he says, with little success. This is mainly due to the fact that the force is too small to watch each Chinamen who may try to suiter the Chinaman who may try to enter the

New York, August 11 .- Consul Genera Navarro, the Mexican representative in this city, regards the war talk as nonsensical and admits that his country would be an easy prey for the United States. "It Jaeger's motion to hear Mr. Brockunier is a matter for discussion and arbitration, and Mr. Whitaker, excites a good deal of he said, "and it does not seem probabl and Mr. Whitaker, excites a good deal of comment. The motion having been entertained and seconded, it was an error not to put it. The broader view is that Council ought not to refuse to hear men who help to make work and wages in Wheeling. The refusal to hear them goes to the world and makes a bad impression; to the world and makes a bad impression; the world and makes a bad impression; the world and makes a bad impression; the refusal to be an earnemable to Mexican laws. There were rumors during the day, however, which tended to throw some uncertainty about Mr. Fink's prediction. One was that the Baltimore & Ohio would open a water route for freight from New York to Philadelphia and Baltimore, and thence West by rail. A nother was that the Baltimore & Ohio would at once contend with the Pennsylvania for Philadelphia freight to New York. The actions of Vice President King during the day and Mr. King's town declaration showed this to be apparently true.

From these points we will convey the freight by water to Port Richmond, thence by the Reading tracks to Wayne Junction and on to New York."

The preliminary trial took place here The preliminary trial took place here to-day, the Prosecutor representing the State and the Hon. J. M. Dalzell appearing for the defendant. The volume of evidence was exceedingly limited. Only three witnesses were examined, yet the whole case was developed in that brief compass. The surgeon who made the autopsy was the first witness. the money had been stolen by some of the boys, but there all information ceased. He tried in every conceivable way to obtain a clue but every endeavor failed. He found them a very ignorant lot, unable to read and write, and apparently willing to testify to anything in regard to the matter. After about three weeks of macquerading, he came out boldly and announced his identity and tried to bluff the sons, but here again he failed. They went to Harriville and secured a lawyer and prepared to fighti out.

APPLED BUT NOT DEFFATED,

Bafiled at every point and unable to secure any reliable information he became more determined than ever to ferret out the burglar or burglars. He learned that about a year before the boys had learned that about a year before the boys had learned that the old gentleman had made a will, and that he had left three of them but one dollar each and that he had willed all his property to the other three. He then proceeded on the hypothesis that the three sons who had been neglected in the will had done the stealing, supposing that they thought that here was an opportunity to socure their portion of the old man's money, which they seemed to be in a fair way to loose.

He there all information caseed. He hired a member of one of the families for \$100 to secure him a clue. This he get when the person he hired information cased.

He then resorted to another maneuver. He hired a member of one of the families for \$100 to secure him a clue. THE FOREST FIRES.

he Blackened Waste-The Fields

MILWAUKEE, August 11,-Though the forests in the Northern tier of counties in this State are still ablaze and are likely to remain on fire until rains quench the flames, the danger to villages and towns is over, unless heavy gales should sweep down upon them. While not over a dozen cases of human cremation are reported it is believed that many backwoodsmen and families cannot possibly have secaped. The fatality to live stock has been terrible. Hundreds of the charred bodies of cattle lie on the blackened track of the devastating cyclone of fire. It is estimated that in Calumet, Clark, Maranthon and a few adjacent counties 500 families are rendered homeless and destitute.

Many of these people had narrow escapes from death, having hidden in wells or submerged themselves up to their necks in streams with wet blankets, covering their heads until the fire passed. In some places the fire swooped down so auddenly upon the people that they barely had time to seek this method of aalety. In other places the roar of the flames was heard for miles, and the terror-stricken people fied madly before the flames to neighboring villages and towns. The loss cannot even be estimated. Hundreds of homes, dozens of saw mills and millions of feet of timber are in ashes.

The Belfast Riots-Trying to fix the Blame

A Protestant's Story of the Affair-A Wealthy American Marries Lady Evelyn-Foreign News of Interest

BELFAST, August 11 .- The city was comparatively quiet during the night, and thus far to-day there has been no attempt at renewing the rioting. John Mafoning died in a hospital here to-day from a gunshot wound received in the recent riots. A petition, which has received numerous signatures, has been handed to the Mayor demanding the appointment of a royal ommission to investigate and report upon the causes of the disorders which have cocurred here since June.

A press representative, who has been investigating the riots, their causes, results, etc., called upon Rev. Dr. Kand, the Grand Master of the Grand Orange Lodge Grand Master of the Grand Orange Lodge of Belfast. He said; "I see that Davitt says the riots are due entirely to the aggression of the Orangemen. That is an anqualified lie, with not an atom of foundation. I attribute the riots solely to the unprovoked attack upon the Presbyterian Sunday school excursion a week ago last Saturday, made by Catholics on Carrick Hill. a low quarter inhabited almost wholly by National Leaguera. The riots thus he you were maintained by repeated attacks upon Processant girls going to and from un were maintained by repeated attacks upon Procestant girls going to and from work and also by the infamous partisanship of the police who attack Protestants whenever they get a chance. The police force of Belfast being mainly composed of Catholics, there is no body of men to be found in which party feeling runs so high and understrained as it does among them. Why, only last Saturday three of the villians entered the house of a member of any congregation.

Saturday three of the villians entered the house of a member of my congregation without warning, shut the door and shouted: 'We are Tipperary boys. We have come to shoot you Orange beggars, and we'll shoot you like rats.' One advanced toward the terrified inmates of the house, and said: 'I shot six Orangemen last night, and I mean to shoot twelve to-night.' A disturbance ontaide attracted the attention of the fellows, and they withdrew without executing their threats, but this sort of thing is a common occurrence. The men have been identified and the authorities notified of the outrage, but it is not likely that anything will be done to punish them. There are 8,000 Catholies on the police force, and

will be done to punish them. There are 8,000 Catholics on the police force, and only 5,500 Protestants, so you may see how little mercy Orangemen may expect from them as a body.

"Another fruitful source of disorder was the election of Thomas Sexton, and the riots may be said to have been caused in part by that event. His apparent success at the poll—it is now known beyond the at the polls—it is now known beyond the possibility of doubt that this election was llegal-made the National party more bumptions and insolent than ever, and tended greatly to sustain the excitement. Still another cause may be found in the sglation of autonomy for Ireland which aroused great irritation among the Protest-ants."

A Wentthy American Marries the Daughter of the Duke of Argyll. LONDON, August 11.—Mr. James Baillie London, Angust 11.—Mr. James Baillie Hamilton was married to-day in Westminster Abbey to Lady Evelyn, the fourth daughter of the Duke of Argyll. Mr. Hamilton is well known in New York and Boston. The ceremony was witnessed by a large assemblage of distinguished persons. Among them were the Duke of Argyll and his family, the Marquis of Lorne, the Marquis of Salishury and his wife, the Erri and Countess Percy, the Duke and Duchess of Buccleuch, Mr. and Mrs. Gladstone, United States Minister Phelps and Mrs. Phelps, and more than two hundred others. The ritual was accompanied by a full choral service. The bride's dress was of white China silk, and during the marriage ceremony knelt together behind the bride before a beautiful decorated altar, forming the cantral group in one of the prettiest pictures over witnessed in the Abbey.

James Russell Lowell, the Duke and Duchess of Northumberland, the Erri of Selborne, Canon Liddon, Lord and Lady George Hamilton and the Bishops of St. Albans and Southwell were also present. Mr. George Smyth Baden-Powell, member of Parliament for Liverpool, acted as the groom's best man. One feature of the service was the substitution for the organ
